

NCB No: RDA/CDB/IFB/2020/002/NCB
Hope Hill to Sabbath Hill Road Rehabilitation and Slope Stabilization, Tortola
CLARIFICATION NO. 2 – Rev 2
June 08, 2020

We acknowledge receipt of your queries from the pre-bid meeting of June 02, 2020, for the captioned tender. Our responses to the request for clarification are provided in Table 1 below:

Table 1-Response to Queries from Bidders' Conference held June 2, 2020

RFC#	Question	Answer
001	Who is responsible for providing the dump site for waste materials?	The disposal of all waste materials generated by the project is the responsibility of the Contractor. All waste materials are to be disposed of using the appropriate facilities (Pockwood Pond). Inappropriate practices (e.g. abandoning of waste not at an appropriate site, or 'fly-tipping') will be not be tolerated.
002	Are there any other existing services?	Refer to the Technical Specifications.
003	Are there any provisions in the contract for protection of adjacent properties?	Refer to Bills of Quantities.
004	Does the project site overlap the adjacent property boundary?	Site possession shall be granted to the Contractor by the Employer over the duration of the works.
005	Can the site be cleared for a subsequent site visit in order to determine clearly the current state of the site?	This request will not be granted.
006	Who is the proper authority to speak to traffic management arrangements under these projects; is it the government?	Refer to the Environmental Monitoring Plan and Technical Specifications.
